## DENNIS PETRIQUIN SYMBOLIZES THE WORK OF THE MARCH OF DIMES

Remember Denny Petriquin?  
Last year at this time we had a story on Denny in the Times. At the age of two he was stricken with polio and could no longer run and play with the other children of Veteran's Village. With Denny's mother, Gaynor Petriquin, struggling to get through college on his G.I. allotment, the added load of caring for his stricken son was a heart-breaking burden.  
But the National Foundation for Infantile Paralysis stepped in and took the heavy load off the young shoulders of Denny's veteran father and provided care and treatment which might otherwise have been impossible. Once a week a nurse from the Foundation comes to the Petriquin home and gives Denny therapeutic treatments. At least once a month he is taken to Highland Hospital in Oakland for an examination by Foundation doctors. Braces were provided for his twisted little legs and bit by bit they began to straighten and grow stronger.  
Today Denny is no longer bedridden. Although one fragile leg is shorter than the other, he manages to get about with the aid of his braces, which have been shortened, and special shoes provided by funds from the March of Dimes.  
Denny is now the proud possessor of a four wheeled bicycle, given him for Christmas by Angelo Vasconi of 1517 Alcatraz St., Oakland, who delivered mail to the Petriquin home during the Christmas rush. Denny can pedal himself slowly about the front room of his apartment home and speaks hopefully of the day when he will own a big, two-wheeled bike like other boys.  
What the National Foundation for Infantile Paralysis has done for Dennis Petriquin is just one case where they are restoring health and happiness to thousands of youngsters and adults stricken by dread polio. Funds for this splendid work are derived from the March of Dimes campaign now being conducted throughout the nation. When you give a dime, a dollar or any amount you can afford to the March of Dimes you are helping Denny and thousands of other children to regain the strength and happiness which is an American heritage.

Dennis Petriquin, 3-year-old polio victim, son of Mr. and Mrs. Gaynor Petriquin, 938 Buchanan St., drops a contribution of Oakland City Manager, John F. Hassler, into a March of Dimes Box. Hassler is chairman of the Alameda County March of Dimes, now underway throughout the nation.

### Joe Villa Names 8 As Dime Drive Aides

Joe Villa, Albany chairman of the March of Dimes, last week named eight prominent local businessmen to committees to aid him in the drive which will end here on Jan. 30.  
Dr. Paul Bryan, superintendent of schools, will be in charge of the schools. Godfrey Hanson was chosen to head the appeal to organizations and Harry Barrows, Fred Lope, Clarence Buonaccorsi, George Bernard, Bob Woolworth and Bob Pelegrin, businesses and banks. They are driving to beat last year's contribution of \$1511.  
Villa said that in addition to the hundreds of coin cards being mailed to local residents, collection cards and containers have been placed in local stores and public meeting places. Contributors need only place their donations in the handy coin cards and drop them in the nearest mail box.

WHO IS HE? Why, Mr. Harry E. Kennedy, of 18 Yale Circle, Berkeley. And when it's mouse traps you want—better ones, so the world will beat a path to your door—he'll put it together for you. He's an experimental engineer—remember?

WHO IS SHE? She's a very tiny lady—but has several quite sizeable accomplishments to her credit. She is a graduate of the University of Nebraska, where she majored in voice in the school of music. There she became a member of Pi Kappa Lambda, national music honorary sorority. One of the high points in her career was the two years she spent at Hull House, in Chicago, as instructor of music, dramatics, and folk dancing. Jane Adams, the founder of Hull House, was in residence at the time. She taught drama in the Santa Rosa Junior College, but for the past few years has been serving in the capacity of housewife to her husband, son, and daughter. However, she keeps her "hand in" in the creative arts, as she is actively engaged in writing. Articles have been published in several national educational magazines, including "Parents," "The Elementary School Journal," and one or two psychological periodicals. Her fiction has appeared in "Progress" magazine, a Unity publication, and in almost all the large denominational Sunday School magazines, as well as in some of the smaller literary publications and a few "juveniles." ### Post 292 Gives 1000 Dimes for Polio Campaign

By WALTER HOLLAND

Following a stirring appeal by Godfrey P. Hanson, chairman of the Group and Organizations Committee for the March of Dimes in Albany, the members of Post 292, American Legion, donated 1000 dimes to help the city make up its quota to aid those suffering from polio.

Commenting upon the splendid showing of Albany Post, Joe Villa, local chairman of the March of Dimes stated, "This is the first contribution of considerable size to be given to the Albany Campaign. My thanks to the veterans of Post 292 for responding so early and so well. It is my hope that this example by the Legion will set the pattern for others to follow and that when my committee is called upon for an accounting of dimes we will have more than enough to meet the quota."

Commander Jack Hamilton has received word that Post 292 may be called upon to take charge of the last rites for the burial of veterans who are being returned from graves overseas to resting places near their homes and relatives. Through the National and State departments of the Legion, Albany Post will be notified in advance of the remains of servicemen being returned to this community or nearby by cities within the jurisdiction of Post 292. They will get the approximate date of arrival of the body and will conduct the last rites if it is the wish of relatives to have the American Legion conduct the services.

Hamilton appointed George Mack to organize a firing squad and rifle team. The Post has ordered rifles for the purpose and a uniformed ritualistic team will be organized to conduct services for the returning heroes as well as for members of Albany Post who pass on or for veterans who have relatives or friends connected with the post.

## City Will Get New Fire Truck

The City Council cleared the way Monday night for Albany to buy a new fire engine with the authorization for Fire Chief Fred Pimental to enter into negotiations with the P. E. Van Felt Co. of Oakland, for the purchase of a new piece of equipment to replace the useless old vehicle bought in 1915 for the department.

Pimental estimated the cost of the truck at approximately \$14,000 and said it would be bought on a long term contract. Delivery date of the engine is indefinite. The new type rig is capable of pumping 1000 gallons of water per minute and carries a total length of 2800 feet of hose.

The obsolete Seagrave engine purchased in 1915 is out of use and a second engine is in the shops for repair. Pimental said he doubted if parts to replace the pitted crankshaft could be obtained. This leaves two engines in operation in the department.

The council's approval of the action came after a motion by Councilman Bert E. Hill. Vote for authorization was unanimous.

### Byron Janis to Play Here in Piano Concert

Mrs. Ted Williams, executive secretary of the Albany Community Concert Association, reported Wednesday that she has received word from the Columbia Concert Service Bureau that Miss Yara Bernette, scheduled for a piano concert appearance here on Feb. 6, has been ill and on advice of her doctor, will have to "forego traveling for the next four or five months."

According to Miss Flora Walker, booking manager of the Columbia Bureau, Byron Janis, 19 year old pianist, has been signed to replace Miss Bernette on Feb. 6 at the High School Auditorium.

Now in his third coast to coast concert tour and performance with major symphony orchestras, Janis was the star of his own NBC radio program and soloist many time with the NBC Symphony Orchestra under the baton of Dr. Frank Black. He has been acclaimed by such top-flight musicians as Toscanini and praised by press and radio. In 1946 the Baltimore Sun enthusiastically reported that Janis has "a tone no less than entrancing."

When he was only ten years old, Janis was the musical star of the Magic Key radio program and NBC Symphony soloist at the age of 16. To his full repertoire of concert piano music he adds the phenomenal mastery of 11 major concertos including the works of Bach, Beethoven, and Schuman.

Born in Pittsburgh, Pa., of parents who were not musicians but loved good music, Byron's talent was discovered by his kindergarten teacher. His parents gladly encouraged his study and he readily proved his ability in a debut recital in Pittsburgh at the age of nine.

The first discussion was held on Thursday, January 22, at 8:00 p. m. at the Child Care Center on Ninth St. in Codornices Village. The topics will come under the general heading of Common Problems which arise in American families today.

Mrs. Dixon, who is the mother of two young children, trained with Corrine Sturtevant, formerly consultant in group therapy on the staff of the Child Development Center at the Children's Hospital of the Eastbay, and the leading specialist in that field in the bay area.

## TEACHERS PLAN NEW CORNELL CLASSROOMS

With the purchase of property south of and adjoining Cornell School nearing completion, a professional committee of teachers and school administrators has been appointed by Dr. Paul C. Bryan, Superintendent of Schools, to make recommendations on the type of classroom that should be included in the new Cornell School unit. The committee will make recommendations in the size of rooms, the arrangement of teaching facilities, and additional modern features that should be included from the teachers' point of view. When definite ideas have been developed by this committee, architects will then prepare detailed plans for the construction of modern classrooms. Nine classrooms for upper grade pupils, a library, a cafeteria and the administration offices are to be included in the new building which will be built on Talbot Avenue. The location of the new unit on Talbot Avenue is a change from the original plans but this site offers obvious advantages. It will eliminate heavy traffic and playground noises in the classrooms; the old north building classrooms can be used during construction, and with the purchase of the property to the south a larger and more usable playground will result. However, the detailed planning of the new building has been delayed until it was certain that this additional property could be acquired. Upon the completion of the new unit, the old north building on Solano Avenue will be razed and this property sold.

### MORGAN'S MEANDERINGS

By M. S. T.

If some of the type in the Times comes out upside down this week you can blame Mary Ann. Mary Ann is the week-old daughter of Art Rasmussen, born last Thursday at the Albany Hospital. Art is the boy in the back room who puts the paper together.

Speaking of hospitals reminds us that Bea Raymond is in one. Albany Hospital to be specific. Dr. Robert McMahon finally persuaded Beas to slow down long enough to take a rest for a few days. No need to tell you who Beas is in Albany, she is Albany.

The Kensington Volunteer Fire Association learned how a professional department of fire fighters do things Tuesday night when off duty members of the Albany FD went up on the hill to show their second film, "Fire Plays No Favorites." Going up for the show and the good food were Chief Fred Pimental, Capt. Gerald Browne, and Hosemen Dick McSheehy, John Hirtz, Hal Johnsen and Ken Symington.

The fire laddies tell me that plans are booming ahead for the second annual dance of the Fire and Police Civil Service Club. They have signed Homer Cockerall's band to make music for them again and are all set for another big time sometime in March.

Brightest new spot along San Pablo Ave. these days is Charles Robin's Chevron gas station opened just this week. Equipped to offer the latest in car care, this newest enterprise at Portland Ave. is a welcome addition to our ever growing community.

Those who saw it are still praising it. I mean the clever one-act "melterdrame" put on by the Marin Dads Club when they met with the P.T.A. on Jan. 6. Called the "Villain's Last Stand," the play caused much beating together of hands and other organizations have asked to see the mighty thespians in a repeat performance.

One of Ed Howell's most prized possessions is a pair of redwood bookends given him by Harry Stoops, Executive Secretary of the California Recreation Executives Association. Inscribed on the bookends is "CREA President 1946 and 1947." They say thanks to Ed from the Association for the swell work he has done as prexy of the group.

### Soroptimist News

By ANNABELLE DENHAM

With Beas Raymond sojourning in the hospital I shall report the happenings of this week among the Soroptimist Club with a get well wish to Beas as a lead-off. When Beas lets anything get her down that is news comparable to "man bites dog."

The Soroptimist met at Gino's Restaurant on Wednesday, Jan. 21 with Dorrie Gamble as chairman of the day. She introduced the speaker, Russell T. Prescott, Technical Editor for the Western Regional Laboratory, who gave us a word picture of the work being done in this region. A tour of the lab is planned for the near future.

Three visitors met with the Albany Club. They were: Bobbie Burns and Gertrude Wright of the Berkeley Soroptimist Club and Edith Doyle of San Francisco.

Word has come from Soroptimist Betty Allison that their visit to Miami is being enjoyed with an added thought that the California Chamber of Commerce has nothing to worry about as far as competition is concerned.

### It's Ridiculous

They call it a ridiculous sale, for such bargains as are offered at House of Harris in Berkeley seem impossible in the face of inflationary prices of today. But they are doing it at the big men's and boy's store at Shattuck and Center St. and are offering the buying public some astounding prices. Their ad giving some of the many items going on the big clearance sale is on page two.

### 'Y' Board Plans Regular Meeting For Next Thurs.

Simmons, Walter Teasdale, Joe Villa, Elmer F. Coble.

The Junior Hi-Y Basketball team of the Albany YMCA defeated the Berkeley Jr. Hi-Y Torch Club Saturday by a score of 31 to 46. Gary Robin was high point man with 14 points and Richard Pawson next with a 10. C. Lockren of the Torch Club was high point man with 13 points. The Albany gang will have a tough game Saturday at 11:00 A. M. at the West Berkeley 'Y' when they tangle with the Tigers.

The YMCA Boys and Girls Swimming classes have been changed. Boys starting at 8 a. m. and the Girls starting at 8:40 a. m. Swimming is held every Saturday morning at the Berkeley YMCA.

The regular Grade school boys Gym class held every Monday and Thursday afternoon at the Albany 'Y' Building is working ambitiously on a series of all-around championship events. The Grade School (Continued on page three)

## Saturday Basketball Leagues Popular

Basketball leagues for juveniles at the Albany high school gymnasium on Saturdays from 9:00 a. m. to 5 p. m. are proving a very popular activity.

The program was inaugurated in line with the recreation department's expansion of youth activities with some 300 boys participating in this sport on weekends.

## 100 YEARS of PROGRESS in WATER POWER

SUTTER'S SAWMILL is the symbol of an epochal event in the history of California and the Nation—James W. Marshall's discovery of gold at Coloma on January 24, 1848. California's early growth and prosperity stemmed from this event. And here was one of the earliest developments of the water power which, applied to electric generators, turns the wheels of industry today.

At Sutter's sawmill a small, wooden flutterwheel was fed by a plank flume 10 feet wide by 50 feet long to drive an upright saw through sugar pine logs. Fascinated Indians watched the saw go up and down and said, "Buena, buena".

Today in the high Sierra, above Coloma, along the Mokelumne, Feather and Yuba rivers, Pacific Gas and Electric Company is rushing construction of five great hydro-electric plants at a cost of \$5 million dollars. Here batteries of giant steel water wheels will spin generators to produce 464,000 horsepower of electricity.

Here again are foresight and water power teamed up to make life and work better in California by producing an abundance of electricity at low cost and delivering it to the people by a service that we hope will always merit a sincere "buena".

**P.G. and E.**

PACIFIC GAS AND ELECTRIC COMPANY

One of six 33,300 pound water wheels now being started in the Electric Powerhouse on the Mokelumne River, 43,000 feet of 12 by 15 1/2 foot tunnel will water to the new powerhouse. This new plant, a capacity of 133,000 horsepower is scheduled in operation this summer.

### Rosalie Dotson Wed At Berkeley Chapel

In the presence of some 60 close friends and relatives, John B. Rumrill claimed Rosalie Robie Dotson as his bride at the Chapel of the Flowers in Berkeley on Jan. 10. Rev. Fred Stripp officiated at the

double ring ceremony which took place at 7 p. m.

The bride entered the chapel on the arm of her father, W. R. Robie of Albany. She wore a gown of hyacinth blue moiré with matching gauntlets. It was styled with deep shoulders and high neckline of net with effective shirring ornamenting the bodice. Her fingertip veil of blue was held by a coronet of white bouvardia and the old-fashioned frilled bouquet she carried was all white.

For something old she wore a pearl and diamond lavalier, an engagement present from her father to her mother.

Willie Robie was her sister's only attendant and was gowned in white net trimmed with white satin bands worn over white taffeta. Her frilled bouquet was of pink bouvardia, pink sweet peas and tiny white crysan-

themums with the ribbon loops and streamers of pink.

Serving as best man for his brother-in-law was Robert Carver, Ushers were Walter S. Robie, brother of the bride and Richard Rumrill, the groom's brother.

The reception following the ceremony was held at the home of the bride's parents on Brighton Ave. The newlyweds are honeymooning at Yosemite where they expect to enjoy the winter sports. Both are ski enthusiasts.

They will make their home in Richmond. The young couple met at the Cutter Laboratory where both are employed.

Cucumbers are vine plants in the United States, but in Africa and some other countries there are cucumber trees, relatives of the common cucumber.

was put on by the regular officers, with Worthy President Matt Zack presiding.

The new Eagles are Frank J. O'Neil, Leonard Knowles and Guy Ankrum.

Final plans were discussed for the forthcoming Valentine Dance, which will be held on February 14, at Painters' Hall in El Cerrito. "If you come, you'll be sure to have fun," say the Eagles.

### EASTERN STAR HONORED

Leona Flannery, Grand Matron of the Grand Chapter, of the State of California, Order of Eastern Star, honored the Albany Chapter, No. 550, O.E.S., with an official visit last Friday evening, Jan. 16. It was really a "white tie and tails" affair, with Marjorie O. Roney, Worthy Matron, and Harold W. Olson, Worthy Patron of the local chapter putting their "best feet" forward. Lovely table decorations were executed by Marie Graham, and refreshments were under the chairmanship of Ruth Showalter. Coming so early in the new year, this visit has filled the new officers with inspiration, and really gotten them off to a good start.

A reception honoring Mrs. Clarissa (Wemple) Parker on the event of her twenty-fifth anniversary as a member of the Native Daughters of the Golden West, was held at the home of Yvonne Walkup, 837 Pomona Ave., Tuesday evening, Jan. 20. Mrs. Parker, a former member of an Oakland Parlor, organized Albany Parlor, No. 260, Native Daughters of the Golden West. She was presented with her twenty-five year pin, and many other gifts. Those who gathered to help Mrs. Parker celebrate were: Laura Isom, Mrs. Parker's mother; May Ellis Olson, Margaret Cannon, Pearl Kellogg, Lena Torchia, Anne Lathe, Ann Moers, Althea Deluchi, Thelma Goss, Mrs. Hart, Ruble Johansen, Daisy Olufsen, Agnes Madison, Evelyn Ball, Lottie Brauer, Mildred Johansen, Peggy Aguayo, Nellie Graham, and the hostess, Yvonne Walkup. Games were played, and delicious refreshments brought a thoroughly delightful evening to a close. Congratulations to you—Mrs. Parker.

**SURPRISE!**  
Announcement of the marriage of Lawrence J. Hardie, and Alice June Knight, on January 5th, at Portland, Oregon, has just been made to their many friends. The groom is the son of Albany's own judge, Louis J. Hardie, and the newlyweds are popular in the younger set.

### Less Delinquency in County

#### Tax Payments

A delinquency of only 2.38 per cent in first installment property tax payments for this fiscal year as compared with 2.52 per cent in 1946, was reported Tuesday by County Tax Collector Edwin Meese Jr. in a statement filed with the Board of Supervisors.

Of the \$16,624,630 first installment quota only \$395,714 remained unpaid on December 5, the delinquency date, Meese stated. Further payments, with a six per cent penalty added, are still being received. The second installment, due January 20, becomes delinquent April 20. A total of \$33,248,279 is to be collected in property taxes this year, an increase of fifteen per cent over the 1946-47 amount.

A newspaper editor in Iowa air conditions his home by piping cool air into it from a cave under the foundation.

Their elopement came as the climax of a long-standing childhood romance, and from now on, Mr. and Mrs. Hardie will be at home to their friends at 435 Alcatraz Ave., Oakland.

Thirty-five women of Circle One of the Albany Community Methodist Church met for their regular January meeting at the home of Mary Doyle Marr, on Marin Ave., last week. This turned out to be a regular party, with the hostess wearing a long afternoon dress, and games and refreshments relieving the solemnity of the business part of the session. "We want to come again," all the ladies said, as they thanked their hostess for a lovely afternoon.

If you miss his smiling face it's because Charlie isn't around much any more. The genial Mr. Moore spends much of his time at Clear Lake these days, working on this and that—there's going to be a new home there some day. After finishing some of the "underground" work, he's now top-sides, working on a guest house. The real "big house" for the family will come next. Happy pounding, Charlie!

Did you receive your tickets for the Community Concerts? They are in the mail this week, and you must be sure to check up on yours if you don't receive them soon, as the first concert will be on Feb. 6. This is a real step forward for Albany in cultural development, and we are all looking forward to these concerts.

Bob and Kay Fritz will come home from Los Angeles next Monday chuck full of new ideas for their shop—the Bo-Kay Gift Shop. They are trekking south on Saturday to take in the gift show in the Southern City, and will have some fun on the side, they say, as well as seeing what's new in gifts.

Keep your eyes peeled for those splashy new ties the girls are wearing—men's ties, to be sure, but with what a new twist! Sequine and beads all over the place. Very ultra and smart!

### Former Albany Girl Married in Indiana

Mr. and Mrs. C. F. Beam of 1007 Evelyn Avenue, Wednesday announced the marriage of their daughter, Dora, to Ernest A. Hitt, son of Mr. O. D. Hitt of Michigan City, Indiana, on Friday evening, Dec. 12.

Culminating their engagement announced in December, 1945, the couple were wed in a double-ring candlelight ceremony performed in the First Christian Church of Michigan City.

The bride is a graduate of Albany High School, class of 1943. Following graduation she was employed at the U. S. Department of Agriculture's Western Regional Research Laboratory of this city. She went to Michigan City in December, 1946, for a year's stay, and has been working as Secretary to the Chief Engineer at Michigan Products Corporation there.

The groom, upon graduation from Michigan City, High School, served in the U. S. Navy. He was stationed at both San Francisco and Pearl Harbor Fleet Post Offices. After discharge, he resumed his position with the Chicago South Shore and South Bend Railroad.

The couple plan a two weeks' vacation to California in early February, where they will visit with the bride's parents and relatives and look forward to seeing their many acquaintances here.

## We've put in 2 1/4 MILLION TELEPHONES since V-J Day

1. We had to break records...and we did. Today we're serving over one-fourth more telephones than at the war's end—a net gain of three-quarters of a million. And, since every day many customers move, we actually had to install more than two and a quarter million telephones to make this gain.

2. Complex splices like this—thousands of them—went into the two million miles of wire we've put in. And that's only part of the story—more than 200 new buildings or additions...complex new switching equipment in almost all our buildings...these and other facilities are being added in the face of sharply rising costs and tough supply problems.

3. We're still working against time. Orders continue to flood in. To fill service needs we're adding facilities at the rate of more than half a million dollars a day—every day. A huge investment, yes. But telephones have been going in as never before in the West. And as the system grows, your telephone service becomes more valuable still.

Where does the money come from...millions of new working dollars needed to extend and improve service? Millions must come, not from telephone bills, but from thousands of people who put their savings to work in the telephone business. To attract these working dollars, we must pay a reasonable amount for their use. This requires the sale of our services at fair and adequate prices.

## What America Means to Me

(The following article won for Miss Fisher a five dollar check and a Gold Key signifying honorary membership as a Quiz Kid in a recent national contest sponsored by the Quiz Kids radio fame. In conjunction with the American Heritage Foundation.)

By GLADEEN FISHER

America, to me, means freedom—the liberty to be myself at all times, to think and do as I please so long as it doesn't deprive someone else of his rights. America is a land of laughter and happiness, for freedom is the secret of happiness.

One of the most important benefits of my America is security from fear. It gives me the assurance that my liberties are protected, and that they will always be there so long as I, and others with me, make it our responsibility to keep them.

I am a part of my government. In a few years it will be my privilege to vote and help send my representatives to lead our democracy. Until my voting age I have free schooling to teach me what I must know in order to make the right decisions as an American citizen. With this wonderful privilege I feel a responsibility to get the most out of my schooling in order to take my place among the leaders to help preserve the liberties that we have.

To me America is a friendly land of opportunity where everyone has

the equal right for success, if he has the will to follow his ambition. A friendly smile in a friendly nation is the symbol of my America.

America means football games, popcorn, hot dogs and cokes. Movies, newspapers, bobble sox and jeans, and taking the car out on Saturday night are all symbols of what America means to me. Firecrackers on the Fourth of July, turkey on Thanksgiving, Santa Claus at Christmas and confetti on New Year's eve; the Red Cross, Community Chest, Scouts and church bazaars are America.

My land gives me freedom of religion. And no matter what faith I prefer, it is my right to practice my belief. If others come to my country, it is my wish that they too will use this freedom for it is by this unselfish attitude towards all people that our world will be held together and peace once again will be attained.

To me, America is the thoughtfulness of someone else.

May God grant me the wisdom and courage to help preserve this wonderful heritage. May God bless my America.

## Ice Hockey Teams to Play for Benefit of Children's Hospital

Children's Hospital of the East Bay will benefit from the ice hockey game between Oakland and San Francisco teams, to be played in Berkeley Iceland, on the evening of Jan. 30.

For their first assignment of the new year, members of the hospital's various branches face the herculean task of selling 4200 seats to assure the benefit's success.

Many family groups will attend the game, and some branches are planning dinner and supper parties to precede or follow the event.

Scrip tickets are being sold by hospital members. These must be turned in at the Berkeley Iceland, Ward and Milvia Streets, for reserved seats.
